

ANNEXURE					
SDG-3					
Target & Achievements of Sustainable Development Goals of HP State as per Drishti Himachal Pradesh-2030					
Targets	Indicators (As given by MoSPI /State Govt.)		Target by 2022	Achievement by 2022	Remark
	National Indicators	State Indicators			
3.1 By 2030, reduce the maternal mortality ratio to less than 70 per 100,000 live births.	Maternal mortality ratio	Maternal mortality ratio	To reduce maternal deaths in the absolute numbers <45	46	State Report (near achievement)
	Proportion of births attended by skilled health personnel	Proportion of births attended by skilled health personnel	Ensure 90% births attended by SBA or institutional deliveries	95.68%	HMIS (achieved)
	Under-five mortality rate	Under-five mortality rate	Reduction in Under 5Mortality from the existing level to 30	23	SRS 2020 (achieved)
3.2 By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births	Neonatal mortality rate	Neonatal mortality rate	Reduction in Neonatal Mortality rate from the existing level to 15	13	SRS 2020(achieved)
			Reduction in Infant Mortality rate from the existing level to 22	17	SRS 2020(achieved)
3.3 By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.	Number of new HIV infections per 1,000 uninfected population	Number of new HIV infections per 1,000 Uninfected population	90% coverage under ART	>90%	(achieved)
			Zero transmission of HIV from mother to child	100%	(achieved)
			Sustain the HIV prevention activities	100%	(achieved)

	Tuberculosis incidence per 100,000 population	Tuberculosis incidence per 100,000 population	Reduce TB incidence <100/lakh,	211/lakh population	The state is doing active case findings on campaign mode . ASHAs are going to each household on every sunday to screen 100% population for TB
	Malaria incidence per 1,000 population	Annual Parasite Rate (APR) per 1,000	Sustain the effort and ensure zero transmission of API	API <1	(achieved)
	Number of people requiring intervention against Neglected tropical Diseases(Dengue, Chikungunya, Kala-azar, Leprosy, Lymplatic Filariasis, Soil Transmitted Helminths, V Lishmaniasis)	Number of people will be monitored against Dengue only, as the state doesn't fall under tropical region		Regular monitoring is being ensured for Dengue and Chikungenia	(achieved)
3.4 To reduce the premature morality due to NCDs (Non communicable disease) by 1 /3rd by 2030 (Prevalence and treatment and to promote Mental Health and well being)	Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease	Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease	Implement of the compressive NCDs prevention programme in the State as per Gol guidelines	The plan is operational in the State as NP- NCD guidelines of GOI	The detailed reports are available on NHMHP website
			Implement of the compressive NCDs prevention programme in the State as per Gol guidelines	The plan is operational in the State as NP- NCD guidelines of GOI	The detailed reports are available on NHMHP website
3.5 Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.	Coverage of treatment interventions (pharmacological, psychosocial and rehabilitation and aftercare services) for substance	Coverage of treatment interventions (pharmacological, psychosocial and rehabilitation and aftercare services) for	To ensure awareness/enforced of the existing regulations	The awreness and enforcement activities are going on in entire state	(achieved)

	use disorders	substance use disorders	To access the impact of the innovations	The study has to be planned for this purpose	The study will be proposed in PIP for approval from GOI
			Operationalization of the road map with the Excise, Police Department and NGOs to minimize the use of harmful alcohol	The awareness and enforcement activities are going on in entire state in collaboration with all concerned departments	(achieved)
			Ensure de-addiction facility up to CHCs (2020) and PHCs (2024) levels and to ensure quality of services at all level	The basic de-addiction services are available in all CHCs. 101 dedicated Nyi Disha Kendra has been set up in HP upto CHC level	Achieved
3.6 By 2020, halve the number of deaths and injuries from road traffic accidents.	Death rate due to road traffic injuries	Death rate due to road traffic injuries	To ensure dedicated Trauma care services up to CHC level and quality services in all centers.	The Trauma care are available upto CHC Level. The quality of services is being insured.	Achieved
3.7.By 2030, ensure universal access to sexual and reproductive health-care services, including for family	Proportion of women of reproductive age (aged 15-49 years) who have their	Proportion of women of reproductive age (aged 15-49 years) who have	Reduction in unmet need by 10%,	7.90%	NFHS(achieved)

planning, information and education, and the integration of reproductive health in to national Strategies and programmes	need for family planning satisfied with modern methods Annual number of births to women aged 15-19 years per 1,000 women in that age group	their need for family planning satisfied with modern methods Annual number of births to women aged 15-19 years per 1,000 women in that age group	To ensure the 3 years difference between birth of two children (to reduce sibling rivalry)	The use of birth spacing methods has increased in the state which indicates that the spacing is increasing	We are proposing a study on birth spacing in PIP to GOI (near achievement)
3.8 Achieve universal health coverage(UHC), including financial risk protection, access to quality essential health-care services and access to safe, effective, Quality and affordable essential medicines and vaccines for all.	Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods	Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods	To strengthening the existing ARSH clinic	101 Nayi Disha Kendra (AFHC) established	(achieved)
	Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods	Proportion of women of reproductive age (aged 15-49 years) who have their need for family planning satisfied with modern methods	100% immunization and the same will be retained.	Retained	(achieved)
	Percentage of women aged 15-49 years with a live birth in a given time period who received antenatal care, four times or more	Percentage of women aged 15-49 years with a live birth in a given time period who received antenatal care, four times or more	100% coverage of entire population under Health Insurance scheme and the same will be sustained.	We have Ayushman scheme for BPL and Himcare for APL	(achieved)
	Percentage of women aged 15-49 years with a live birth in a given time period who received antenatal care, four times or more	Percentage of women aged 15-49 years with a live birth in a given time period who received antenatal care, four times or more	Population based screening, including cervical cancer, of all NCDs	The population based NCD screening has been started in HP as Mukhyamantri Nirog Yojna from 2019 onward	Achieved. The reports are available in NHMHPwebsite
			Achieving 100% immunization sustain the same	Sustained	(achieved)

3.9.By 2030, substantially reduce the number of deaths and illness form hazardous chemical and air, water and soil pollution and contamination.	Mortality rate attributed to household and ambient air pollution	Households using polluting fuels for cooking	There is no specific data on deaths and illness form hazardous chemical and air, water and soil pollution and contamination, Therefore, the target cannot be fixed. The State may plan to conduct a survey/study to retrieve the data to fix the targets	The saturation of LPG use at household level has been achieved in HP but the study has to be done for impact assesemnt	The study will be proposed in PIP for approval from GOI
3.a Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate	Age standardized prevalence of current tobacco use among persons aged 15+ years	Age standardized prevalence of current tobacco use among persons aged 15+ years	Bring down tobacco use among aged 15 years and older from current level (22%) to 17%	The existing tobacco use is 11.6% as per E Health card application and it was 16 % in HP as per GATS -2 in 2017	Achieved
3.b To support the research and development of vaccines and medicines for the communicable and non-communicable diseases.	Out of Pocket expenditure on health Total net official development assistance to medical research and basic health sectors	Out of Pocket expenditure on health Total net official development assistance to medical research and basic health sectors	Sustainable Development Goal 3 indicator will be reviewed periodically	The prgress is reviewed regularly	Achieved
3.c Substantially increase health financing and the recruitment, development, training and retention of the health workforce (Health+ Avurveda	Total physicians nurses and midwives per 10000 population	Total physicians nurses and midwives per 10000 population	The skills of manpower will be enhanced as per the emerging needs.	The capacity building programs are going on up to ASHA level	Achieved

3.d Strengthen the capacity for early warning, risk reduction and of local, National and global health risks (Indicator: No. of Blocks/ Panchyats or villages, Schools sensitized about risk management and mitigation)	No. of beneficiaries covered	To covers all sub divisions / blocks teams for the awareness / training / sensitization	The capacity bulding programs are going on up to ASHA level	Achieved
