Subject: Notification of District NGO committee under RNTCP

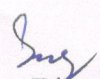

RNTCP recognizes the need for involvement of all sectors-public and private to create an epidemiological impact of Tuberculosis control. Public private mix (PPM) has been recognized as an important component in the RNTCP. The Government of India developed guidelines for NGO and private sector involvement in TB control which were published in 2000, 2001, 2008 and latest in 2014. However, identification of priority areas and selection of competent partners remains a daunting task. Hence, a District NGO Committee is notified herewith with following terms of reference.

Structure of the Committee:

- Chief Medical Officer: Chairman
- District TB Officer: Member Secretary
- Medical Officer of Health: Member
- DCF/ACF: Member

Function of the committee:

1. Selection of NGOs/Private providers partners in the district based upon the need of the program (as per geography/functional units) and capacity of the partners.
2. Every quarter a review of the NGO/Private provider's partnership would be held under the chairmanship of District Commissioner or his nominee. All the members of District NGO committee will also be present.
