

No. HFW-H/PMSMA/2016  
NATIONAL HEALTH MISSION  
HIMACHAL PRADESH, SHIMLA-171009

To,

All the Chief Medical Officers,  
Himachal Pradesh

Dated Shimla-9, the

Subject: **Urgent- Roll out of Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA) from 9<sup>th</sup> August 2016 onwards.**

Sir/Madam,

As India strives towards achieving the Sustainable Development Goals, progress in reducing Maternal Mortality becomes an important frontier. With the implementation of schemes such as JSY and JSSK, the institutional delivery rate of Himachal Pradesh has increased to 68.7% (Rapid Survey Of Children 2013-14). In spite of this massive increase in the number of pregnant women coming to institutions for delivery, till date only 57.8% receive 3 ANC, 34.8% receive 4 ANC and the coverage of full ANC (provision of IFA tablets, full immunization and minimum 3 ANC visit) is as low as 26.3%. The desired coverage and quality of maternal health services is still a matter of concern and the Maternal Mortality of the state is still high. Timely detection of high risk pregnancies can prevent deaths due to preventable causes.

With this objective to provide quality ANC to every pregnant women, the state has decided to launch "Pradhan Mantri Surakshit Matritav Abhiyan", a fixed day ANC, given on 9<sup>th</sup> of every month across the state (Softcopy of detailed guidelines attached).

For the successful implementation of this programme, the following needs to be done:

1. Notify a District level committee as follows:

- |   |  |
|---|--|
| i. Chief Medical Officer                        | - Chairman                             |
| ii. District Programme Officer(Maternal Health) | - District Nodal Officer               |
| iii. MEIO/Health Educator at District level     | - District Communication Nodal Officer |
| iv. MO In-charge of identified PMSMA clinic     | - Facility Nodal Officer               |

The notified committees may be conveyed to the State Headquarter.

2. All government health institutions where one or more Medical Officer is posted, may be identified as PMSMA clinics.
3. All essential pre-requisites such as human resource, lab investigations, drugs and logistics should be arranged in the clinics well in advance. The responsibility of the same will be of the concerned BMO and Facility Nodal Officer.
4. The ASHAs and ANMs will mobilize pregnant women in 2<sup>nd</sup> and 3<sup>rd</sup> trimester of pregnancy in their area and by the 5<sup>th</sup> of every month would identify and line list such women.

*Handwritten signature*

5. All the staff involved in PMSMA may be sensitized during the review meetings.
6. As all pregnant women are entitled to free ANC checkups, the expenditure for this programme may be booked under JSSK.
7. A detailed action plan for IEC activities may be planned and funds for the same may be utilized from the sanctioned NHM IEC funds.
8. High risk pregnancies identified during PMSMA are to be referred using 108 NAS.
9. A monthly report of the programme needs to be submitted as per attached format.
10. Gynaecologist/Obstetrician may be engaged from the private sector in selected high load facilities. A proposal in this regard may be submitted to the State Headquarter.
11. Private health facilities who volunteer to give free services on the designated day are to be identified and the proposal may be submitted to the State Headquarter.

I would sincerely request all districts to include this programme as an important component of their overall RMNCH+A service delivery package and undertake all measures to begin the implementation of this very important initiative at the earliest.
