**Subject:** Scale up of STEMI project in all the districts in Himachal Pradesh.

Madam/ Sir,

As you are aware that Acute Coronary Syndrome (ACS) is a major cardiovascular cause of mortality. In cases of complete thrombotic occlusion, ST Elevation Myocardial Infarction (STEMI) is observed in which if the occlusion is not completely restored with timely reperfusion therapy there is increased mortality.

To improve the Thrombolysis Rate and reduce the mortality, STEMI project in Hub & Spoke model was piloted in district Shimla in Himachal Pradesh since April 2020. It was found that the Thrombolysis Rate was significantly higher in these patients compared to a comparison group (65.5% vs 27.6%) and the mortality rate was significantly lower (11.0 % vs 18.4%).

Therefore, it has been decided to scale up of the project across all the districts of Himachal Pradesh. For implementation of the project SPO (NP-NCD) is designated as State Nodal Officer (Programmatic) and Dr. P.C. Negi (HoD) Cardiology, IGMC as the State Nodal Officer (Technical). At the district level DPOs, (NP-NCD) are designated as District Nodal Officers (Programmatic). The Districts need to convey the name of one Medical Specialist from the districts who will be designated as DNO (Technical). The said Medical Specialist may be from a Medical College in the districts or from any Health Institutions of the district.

Subsequently, trainings and provision of required
