Subject: Regarding guidance note on Optimizing Post-Natal Care.

Sir/Madam,

To meet the Sustainable Development Goal (SDG) for MMR, it is imperative to ensure quality care and individual tracking of all high risk post-natal mothers, which necessitates a targeted approach for quality screening of mothers during post-natal visits, along with compliance to treatment for identified high risk mothers.

In this regard, please find attached the "Guidance Note on Optimizing Post-Natal Care" (softcopy attached) formulated by GoI which aims to strengthen the quality of post-natal care by laying emphasis on detection of danger signs in mothers and incentivisation of ASHAs for prompt detection, referral & treatment of such high risk post-partum mother.

Yours faithfully,

Deputy Mission Director
National Health Mission
Himachal Pradesh
